

CASCADIA CONSERVATION DISTRICT

CASCADIA IS...

The Cascadia Conservation District is a non-regulatory, grant-funded organization dedicated to encouraging the wise stewardship and conservation of all natural resources in Chelan County.

...HERE TO HELP YOU...

Cascadia's Landowner Assistance Program provides a way for you to get assistance to start or continue managing natural resources on your land. This program can provide technical assistance and in many cases financial assistance to install best management practices to minimize your impact on fish and wildlife as well as conserve fragile natural resources on your land.

LANDOWNER ASSISTANCE PROGRAM

WHO IS ELIGIBLE?

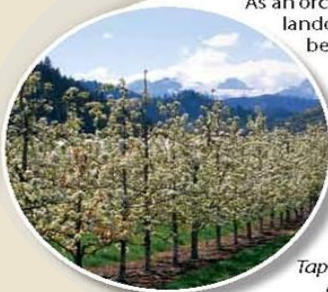

Private landowners within the boundary of Cascadia Conservation District are eligible and encouraged to inquire about the Landowner Assistance Program. Cascadia's district boundary includes land within Chelan County except for the cities of Wenatchee and Chelan. See some examples of eligible land uses below. Contact us at (509) 436-1601 or cascadiacd.org for more information.

...PROTECT YOUR INVESTMENT

The key to maintaining the value of your property and the surrounding environment begins with the good stewardship of natural resources on your land.
