

SEASONAL HABITAT RESTORATION TECHNICIAN

CASCADIA CONSERVATION DISTRICT

ABOUT THE ROLE

Cascadia Conservation District is seeking a highly motivated and skilled individual to join the District as a Habitat Restoration Technician I. This seasonal, full-time position will assist with the District's habitat restoration program. This position works to implement habitat restoration projects to benefit salmonid species and water quality in Chelan County. The Habitat Restoration Technician I will work with landowners, crews and project partners to implement high priority habitat restoration projects. Funding for this position is provided by grants and relies on successful future grant applications. This position reports directly to Cascadia CD's Executive Director taking direction from Habitat Restoration Technician II staff.

This position will begin around April 1st, 2024 and conclude around October 31, 2024.

SERVICE AREA

The quality of life in Chelan County is unsurpassed, evident by a steadily increasing population and a strong, diverse economy. The area's natural beauty and abundance of recreational opportunities are two of the many reasons people come to Chelan County. It's a place characterized by sparkling clear rivers, clean air, flowered hillsides, expansive views, spectacular mountains, brilliant skies, and productive orchards and farms.

From the ridge tops to the valley bottoms, Chelan County is a spectacular place to live, work and play.

COMPENSATION

Starting at \$19.00-\$21.99 per hour, Depending on Qualifications and Experience

ABOUT US

Cascadia Conservation District's mission is to encourage wise stewardship and conservation of all natural resources in Chelan County by:

- Working to implement conservation best management practices on the ground.
- Being an active advocate for wise land use and water management decisions.
- Promoting a reasonable approach to environmental problems.
- Providing locally-led, voluntary, non-regulatory solutions to local environmental problems.
- Educating both adults and youth about natural resources stewardship.

Cascadia CD consists of a small team of dedicated staff focused on providing technical assistance, cost share and building programs that serve our community and the natural resources in Chelan County. Cascadia CD is a non-regulatory political sub-division of Washington State and is governed by a 5-member volunteer Board of Supervisors.

MINIMUM QUALIFICATIONS

A qualified candidate must have:

- Demonstrated the ability to work on multiple projects
- Capability of working with diverse individuals and small groups.
- Able to work in remote and rugged locations under a variety of weather conditions, traverse difficult upland and instream terrain, and carry field equipment necessary to complete required job tasks.
- Ability to lift, pull, carry or push up to 50 lbs
- Strong knowledge of MS Office applications (Word, Excel are essential).
- Valid driver's license.
- At least high school diploma with some experience with natural resource topics
- Strong organizational and written/verbal communication skills.

DESIRED ATTRIBUTES

A well-qualified candidate will have some or all of the following qualifications:

- Ability to communicate in English and Spanish
- Experience operating and maintaining landscape equipment
- Knowledge of native and non-native plants
- Experience working with conservation districts, and NRCS
- Experience working with community groups
- Experience utilizing Drones in the field
- Experience assisting with implementation of habitat restoration projects such as LWD, culvert replacement, beaver dam analogs, riparian plantings or other watershed restoration projects.

Those meeting 2 or more of the desired attributes are encouraged to apply
