Dear Ms. Newell,

The field trip was very fun. I ski there in the winter, so it was fun for me to go up to Mission Ridge again. My favorite part of the field trip was when we did the plant journals. I liked how we got to do leaf rubbings. I also liked how we got to use a mini microscope and how we got to keep our journals. One of the many things that I learned on the field trip, was that there are three pine needles in a set for a type of tree. I'm pretty sure the tree was called a pine tree. Thank you so, so much for the wonderful field trip. It is one of my favorite field trips I have been on so far!

Sincerely,

Sage

Dear Amanda,

Thank you so much for everything you did for us. I had so much fun on the field trip. I also learned so much. I thought the leaf rubbing was really cool. It was also cool how we could see the squirrels and hear the woodpeckers. I am so thankful and appreciate that we got to go on this field trip.

From,
Madilyn

Thank
you

Dear Amanda,

I had so much fun at the trip. One thing that I learned over there was that fire travels faster when it is going up a hill. Something that I thought was cool is when one of the trees smelled like honey that was cool. And how many trees were up there. I wish we can go there again.

From,

Linda

THANK
YOU!

Dear Amanda Newell,

I hope you are doing well. ~~and~~ I had fun
learning about different trees, pine cones, and plants. ~~and~~
I also learned about ~~the~~ stream. And I got
to go into the ski lodge for the first time.
We got to trace out certain plants and
leaves, one was poker the other I traced
was virx sot, and it was a lot of fun!

Dear, Amanda Newell

I hope you are well. I had an extent, and enjoyable time doing the kids in the forest field trip. I learned a ton of new things, or facts, that also added to what I know. Some new things I learned were that small trees can act as a ladder and help the fire reach the taller trees, and that fire fighters will fight fire with fire. One more thing I learned was, wild fires spread faster up hill. Overall, I had a very fun time up at Mission Ridge doing the field trip. Thank you for organizing it for us!

Sincerely,

Dear Amanda Newell,

I hope you are well. I had so much fun on this field trip. I learned about the fire triangle with the craft it was so fun. I also loved going on the walk it was such an adventure. We saw trillium it was so beautiful. Thank you so much for putting this field trip together.

Sincerely,

Ava Callahan

Dear, Amanda Newell

I hope you are well. I had fun hiking and tracing Leaves and Drawing. The Funest thing was playing with Fire I Learned what it takes to be a Fire fighter. I say I had Fun with my Friends. where thankful for the trip! we all had a great time.

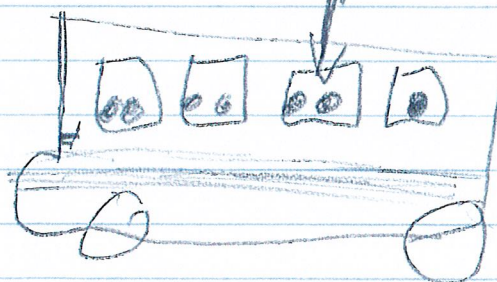

Love, Genesis-M-L ♥

there's us hiking with a stick!

Dear Amanda Nawel,

I hope you are well. I had fun on the field trip doing hiking, journaling, and visualizing a forest fire with matches. I also learned that really tight forests are very bad cause they fight over resources and could die. I also learned about the environment and how one type of pinecon that can only open with the heat of fire.
